

Large Latex Surgical Style Face Mask by MrMucox

Instructions:

- 1) Cut out the pattern
- 2) Trace Face Mask Side pattern onto latex. You'll need 2 mask pieces. Remember to flip Mask portion over for second piece.
- 3) Cut 1 3/4" strips of latex long enough to go around your head as shown in picture, and shape 1 end with the strap end pattern.
- 4) Glue center seam.
- 5) (Optional) Cover center seam with 1/2" strip of latex, and edge.
- 6) Attach one side of strap, about 1 inch in from the edge of mask.
- 7) Fit mask to face and measure strap length. Adjust down a little so it's tight, but not too tight or it will cause the mask to buckle. Trim end of strap with strap end pattern and repeat step 7 for other side.
